DETAILED ACTION

1. The amendment of 21 November 2005 has been noted and made of record.
2. Claims 1-18 have been presented for examination.

Response to Arguments

3. Applicant's arguments, see page 9, filed 21 November 2005, with respect to claims 1-18 have been fully considered and are persuasive. The rejection of claims 1-18 has been withdrawn.

Allowable Subject Matter

4. Claims 1-18 are allowed.
5. The following is an examiner's statement of reasons for allowance:

As cited above, the Examiner agrees with the Applicant's argument that the references fail to disclose where the calling party sends connection information to the called party and the called party connects to the calling party's network using the provided connection information. The Examiner found a similar method disclosed in U.S. Patent Nos. 6,754,708 and 6,912,577, both to Sabatier, but both patents' dates were after the filing date of the instant application. Since the Examiner was unable to find any prior art or motivation to perform the aforementioned step prior to the Applicant's filing date, the step wherein the calling party sends connection information to the called party and the called party connects to the calling party's network using the provided connection information is novel and not obvious.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
